

SIYABONGA MASUKU

DATA ENGINEER | BUILDING AI, CLOUD & DATA SOLUTIONS

PROFILE

Data Engineer with experience designing, building and deploying scalable data and AI solutions in cloud environments. Experienced in developing production-grade data pipelines, REST APIs, machine learning deployment, CI/CD automation and AWS cloud services. Passionate about solving complex engineering challenges through reliable software, cloud technologies and artificial intelligence.

SKILLS

- **Programming:** Python, Java, SQL, C++, JavaScript, HTML/CSS
- **Data Engineering:** ETL/ELT, Data Pipelines, Data Modelling, Large-scale Data Processing
- **Cloud & DevOps:** AWS, CI/CD, Git, Linux
- **Backend:** REST APIs, API Integration
- **AI & Analytics:** Machine Learning, Deep Learning, NLP, Data Analysis
- **Databases:** PostgreSQL, MySQL, SQLite
- **Software Engineering:** Object-Oriented Programming (OOP), Algorithms & Data Structures, Software Design, Testing & Debugging

EDUCATION

BSC HONOURS COMPUTER SCIENCE

- *With Cyber Security*

University of Johannesburg

2022 - 2023

BSC MATHEMATICAL SCIENCE

- *Applied Mathematics & Computer Science*

University of Johannesburg

2015 - 2021

GRADE 12

- *National Senior Certificate*

Nalithuba Secondary School

2010 - 2014

EXPERIENCE

DATA ENGINEER

LexisNexis

Jan 2025 - Present

Building scalable cloud-native data and AI solutions for enterprise applications:

- Develop scalable data pipelines.
- Build backend APIs and cloud services.
- Deploy AI solutions to AWS.
- Automate deployments using CI/CD.
- Work with large-scale enterprise datasets.

ACADEMIC TUTOR/ASSISTANCE

University of Johannesburg

Feb 2022 - Oct 2023

I was assisting/tutoring IT & Computer Science students and working closer with lectures:

- Invigilating during semester tests.
- Marking tests and weekly assignments.
- Individual and group tutoring.
